

- The basic concept is that...
- This...is primarily provided/fulfilled/achieved through...
- It is rather hard to believe that...
- There is a far higher proportion of...who...
- It is expected that...
- This is not an incidental pattern, unique to a particular space and time.
- This measure is likely to cause an unprecedented change
- These measures largely reflect the needs of...
- This phenomenon is not unique to...
- This might prove to be a sustainable and responsible solution to...
- There seems to be an ever-increasing rate of...
- This could be a solution that any responsible person would be prepared to contemplate.
- This is one of the prevalent issues in the modern society.
- Some of the decisions originally perceived as rather unwise have proved a stroke of genius.
- There can be little doubt that...
- Unmistakably,/Unquestionably/Undeniably, this is...
- Although the measure's implementation chances of success appear to be ribbon-thin, statistics have shown that...
- Though it may appear to be a time-consuming process, it has its obvious benefits ...

- This...may well represent the very beginning of a fruitful process.
- The proposed solution is audaciously simple and simply audacious.
- Perhaps more importantly,...
- Rules and policies, regulations and stipulations are innovation killers.
- Scientific evidence can be invaluable, but it has to be used cautiously and in tandem with historical research.
- This...may add more weight to the growing consensus that...
- An idea that is sure to have sparked some lively debate refers to...
- There is relatively thin evidence that...
- There may have been erroneous opinions on this issue; fortunately, recent studies are now setting the record straight:...
- One of the latest studies takes the argument further, claiming that...; however, it seems to be clearly just scratching the surface of a big issue, that is, ...
- This may be, nonetheless, a further step in the right direction in terms of...
